## Disclosures

Loan number(s) followed by an asterisk (\*) are open end credit accounts. With regard to those accounts, the balance subject to interest rate (shown in the "Balance" column) is the unpaid balance each day after credits are subtracted and the new advances or charges are added. The Finance Charge is computed on the daily outstanding balance by applying the daily periodic rate to the balance for the exact number of days such balance remains outstanding. The outstanding balance is shown in the columns marked balance and the daily periodic rate is disclosed after the account number. The ANNUAL PERCENTAGE RATE, which is determined by multiplying the Daily Periodic Rate by the number of periods in the year (365), is likewise disclosed after the account number.

Your savings are federally insured to at least \$250,000 and backed by the full faith and credit of the United States Government.
